Welcome to Our Studios

Muskoka has an artistic tradition more than a century old. Many of the earliest travellers and surveyors brought with them their easels and sketching pads. In the one hundred and twenty years since the region was first settled an informal Muskoka "school" has developed and matured.

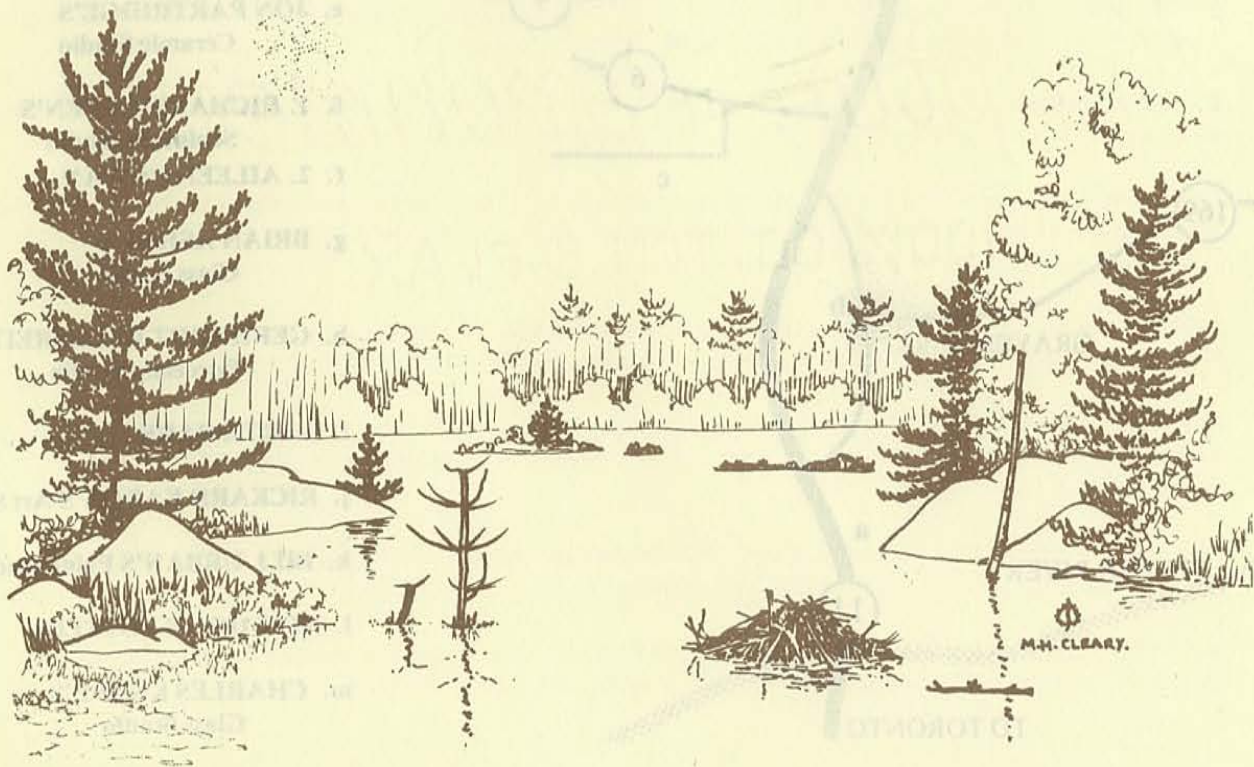

The work of Muskoka artists and artisans is unmistakably Canadian. It expresses the Canadian fascination with the land, with the themes of wild nature, and with the brief record of human habitation. Muskoka artists have come by choice to the district. The freshness of their work springs from the harsh vitality of the Shield rock itself, and from the changing seasons.

Of all seasons, Autumn is the most evocative in Muskoka. The vivid colours of the forest and the clear, cool days provide a perfect setting in which to view the work of the previous spring and summer.

We welcome you warmly to Muskoka's artistic community. We hope you will enjoy your tour and find in our studios work that displays the best of Canadian artistry and craftsmanship.
