Welcome to our Studios

The members of Canada's original studio tour cordially invite you into their workplaces to discover the inspiration behind their talent. Dedicated to the belief that a piece of art is best understood when guests can meet its creator, these artists are delighted to explain their techniques through display, demonstration and discussion.

The Muskoka landscape has a special welcome for you especially on the crisp days of Autumn when the vivid colours of the forest provide a perfect setting for a tour of the backroads. Please enjoy your rendezvous with this community of artists who choose to live and draw inspiration from the rugged Canadian shield. Visitors are welcome year round. Please check listed hours for each studio.

Gail Wilson offers you a new perspective when looking at stained glass. It doesn't have to be a grand church window or a tiny sun catcher. She sees glass as an art form. The glass itself is a work even before it is cut, just like the statue of David hidden in the stone. The images of her finished glass works are sometimes already there to be discovered.
